ULTIMATE 20K

Fast charging Power Bank
UE20039PQ

Package Contents

1 UE20039PQ

2 User Manual

Specification:

Model Name : UE20039PQ

Cell Type : Li-ion Polymer

Battery Capacity : 20000mAh/3.7V/74Wh(Max.)

Rated Input : Built-in cable USB 5V/2A

Rated Input : Lightning USB 5V/2A, 9V/2A, 12V/1.5A

Rated Input : USB-C 5V/2.6A, 9V/2A, 12V/1.5A

Rated Output 1 : USB-C 5V/3A, 9V/2.22A, 12V/1.67A (20W)

Rated Output 2 : Built-in cable USB-C 4.5V/5A, 5V/3A, 9V/2A, 12V/1.5A

Rated Output 3 : USB-A 4.5V/5A, 5V/3A, 9V/2A, 12V/1.5A

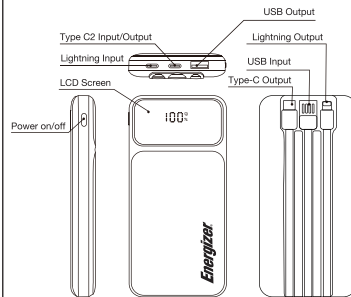

Rated Output 4 : Built-in cable Lightning USB 5V/2A

Total Output : 22.5W (Max.)

Dimensions : 144.32(L) x 69.66(W) x 30.31(H) mm

Weight : 431g±10g

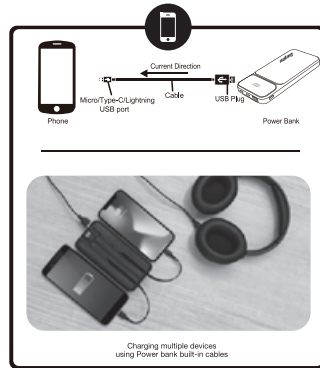

Charging and using the power bank

How to charge your digital Device:

1. Use the original cable from your phone/ tablet etc or make use of the built-in charging cables included with the power bank.
2. If you use your own charging cable, plug the cable into the USB port or the Type-C port at the top of the power bank and then into your device to charge.
3. When using the built-in charging cables, you can choose from a Type-C and Lightning cable to charge your device.

4. The power indicator will light up while charging your device, displaying the battery percentage.

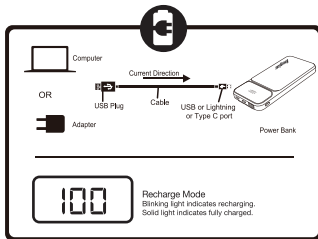

Charging multiple devices using Power bank built-in cables

Safety Instruction

How to charge the powerbank:

1. There are two input ports for charging the power bank, indicated by "IN" on the top of the power bank. Use either a Type-C or Lightning cable and plug them into the Type-C or Lightning Input. Plug the other end of your cable into a wall socket or laptop to charge.
2. The power bank also contains a built-in USB input cable which can be plugged into a USB wall charger or laptop to charge.
3. The LED lights on the power bank will flash while the power bank is charging.
4. The battery percentage indicator will display 100% when fully charged.

1. Do not disassemble or attempt to repair or modify the power bank in any manner. Attempting to do so is dangerous and can lead to personal injury or damage of property.
2. Avoid unnecessary physical damage of the device. Abusing, crushing or dropping may result in product damage.
3. Keep the device dry, do not immerse the device to liquid or expose it to excessive heat or flammable objects. Do not leave the device in your motor vehicle, doing so may lead to overheating and damage to your property.
4. Discharge and charge the power bank at least once a month.
5. When fully charged, disconnect the device from the electricity.
6. Keep the device out of the reach of Children.
7. Dispose of properly or send to recycling center to save the environment.
8. Do not short circuit the power bank battery terminals with metal objects, it may cause fire.
9. Do not expose product to fire or extreme high temperatures, wet or corrosive environment.
10. Optimum working temperature for device is lower 60 degrees Celsius.
11. Charging time will vary depending on type of charger being used due to different specifications.
12. Battery performance will possibly decline after being used for certain period of time.
13. Please fully charge the power bank to activate it before first use.

PowerSafe Management

Guarantees against short circuit and over-charging for your power bank and devices.
